LANGUAGES

- English (B2)
- Japanese
- Filipino

PROFILE

Enthusiastic Web Developer with a basic understanding of front-end and back-end technologies. Familiar with HTML, CSS, PHP, JavaScript, Node.js, Express.js. Currently learning modern frameworks like React.JS. Experienced in using Git and GitHub for version control. Eager to create dynamic and responsive web applications while continuously learning and growing in the field.

With experience as a Hotel Manager, Front Desk Officer, and part-time Tour Guide, I have honed my skills in customer interaction and service. These roles have provided me with valuable insights into effectively communicating and addressing the needs of both local and international clients. I am confident that these skills will be beneficial when working with clients in software development.

WORK EXPERIENCE

Boracay White Coral Hotel

2016 - 2024

Manager and IT Staff

- I'm responsible for managing the OTA extranet, which involves maintaining and updating information related to room availability, rates, and promotions.
- As a channel manager, I'm handling connections between the hotel and various online booking platforms (like Booking.com, Expedia, etc.). Monitor brand consistency across marketing channels and materials.
- I provide basic computer troubleshooting services, including reformatting and resolving software issues for both the hotel staff and guests.
- Oversee the troubleshooting of CCTV cameras, ensuring they function properly.
- Additionally, I review recorded footage for security purposes.
- I'm in charge of upgrading existing hardware (such as computers, servers, or networking equipment) and installing new items.
- Handling inquiries, providing quotations, and promoting the hotel on Facebook is vital for guest engagement.

GT Cosmetics Manufacturing Inc.

2014 - 2016

Office and IT Staff

- I'm in charge of troubleshooting hardware issues (such as reformatting) and cleaning up viruses on computers.
- Managing payroll for the Luzon branch with over 150 employees is a significant responsibility.
- Using Excel with Macro/VBA (Visual Basic for Applications), I automate processes and handle complex calculations efficiently.
- Providing detailed and advanced sales graphs involves using Macro/VBA to extract, analyze, and visualize data.
- Creating basic graphic designs adds a creative touch to my role.
